

Galaxy Surfactants Ltd.

Date: 27th April, 2017

To Maven Vista Team,

To Whom It May Concern

We are delighted to reflect that our organization has been using VENDX Auction & RFQ platform since 6 months. It was pleasure to work with Maven Vista team and the VENDX tool is very well designed and crafted as per our requirements for our online bidding & RFQ platform.

Since it was our first approach towards online we were perplexed to choose particular vendor for our online platform. But choosing Maven vista (VENDX tool) was our good decision.

VENDX Transaction and Auction tool has brought tremendous convenience in terms of simplifying our entire bids evaluation process and brought complete transparency in our decision making process for ensuring best compliance standards.

Throughout this 6 months journey Maven Vista team has helped us very well throughout the deployment process. We look forward to maintain our relationship in here future with maven vista team. We would like to thank each and every team member for great support till now. We also would like to have Maven vista support in return for any modification or any providing new services which can enhance our procurement activities.
