

To Whom It May Concern:

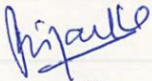

We are happy to mention that we have successfully implemented VENDX Transaction & Auction Engine to have completely automated system for carrying out transactions from RFQ to Order Stage thru using RFP & Auctions.

With VENDX we have successfully achieved our objective of ensuring complete transparency in the process followed by buyers for arriving at decisions and reduce significantly transactional time.

We wish to also reflect that we & our suppliers have found the system very user friendly. With exceptionally high quality of customer support, we were able to ensure deployment of the platform in no time to quickly reap its benefits.

We acknowledge the highly professional approach of MavenVista Team and wish them very best!

They surely have a winner in VENDX!
