To whom so ever it concerns

We are one of the leading Textile companies in Sri Lanka with more than 700 million USD of annual turnover.

In order to have best price discovery for our critical spend we were recommended by Accenture the name of M/S MavenVista Technologies Pvt Ltd to carry out reverse auctions.

We are happy to mention that we & our suppliers have found the Auction Services offered by MavenVista par excellence. Their professionalism, understanding of auctioning process, training methodologies & highly user friendly & comprehensive auction platform have enabled us to save on an average 20% of savings from the auctions conducted by them.

What we have realized that right technology when it is blended with excellent support services can generate huge savings thru most fair, competitive and transparent auctioning environment if it is strategically leveraged.

We wish MavenVista very best & would hope that they continue to deliver many such outstanding services, which can benefit the industry to bring down their cost of goods and services.

Yours sincerely,

.....
Dilan Meegoda
