

To whom so ever it may concern,

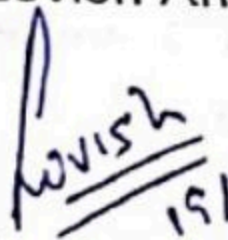

We are happy to note that post evaluation of Vendor management platforms for vendor information management & vendor Sustainability evaluation we have implemented Vendx-directory, the solution offered by MavenVista Technologies.

Vendx-directory has provided us a comprehensive platform for registration of vendors & self-manage their information to ensure constantly updated & self-managed repository of data of vendor capabilities. Besides the built in customized sustainability solution is enabling us to most appropriately evaluate risk pertaining to our critical vendors. Together both these modules which are integrated in vendx vendor directory assist us to most appropriately evaluate vendor risk while contracting.

The usability of the platform and support received from MavenVista team has been excellent. They have demonstrated thorough professionalism and have understood requirements delivering a successful solution desired by GHCL.

From,

Lovish Ahuja
