Letter of Recognition

We **IND-SWIFT LABORATORIES LTD.**- An integrated pharmaceutical organization with global footprints, are using Auction Services of Mavenvista for procuring raw materials. Their capabilities are without a flaw and their auctioning tool **VENDX** is very comprehensive yet very simple to use.

We simply provide them basic details and they do the rest with their excellent auctioning strategies. This wouldn't have been possible without excellent support and professional approach of their Auction Team.

We are happy to be associated with Mavenvista and looking forward to have a long-lasting business relationship with them.
