Testimonial for VENDX Auction platform

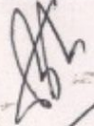

We are happy to reflect that VENDX Auction module has assisted us to generate significant savings even in our complex categories of packaging material.

It was very easy to configure VENDX Auction engine to build appropriate auction strategy. Even our suppliers were delighted as they could respond effortlessly through the aggressive bidding sequences.

We complement Maven Vista team for designing such a comprehensive tool with highly user friendly interface.

We are also thankful to your excellent support team in assisting us to strategize & conduct auctions which has also allowed us to bring transparency in decision making in our organization.
